

Publication Index

The First 30 Years - 1979 through 2009

“Is anyone interested in cataloguing and indexing all MAGIC LANTERN BULLETIN’s – past, present, and future? It sure would be handy when a question arises to have an index to consult. If interested, contact Dick Balzer or the editor.”

--The Magic Lantern Bulletin, Vol. V No. 4 March 1984

Larry and Dick – your wait is over. Enjoy

--Sharon Koch and Dorothy Easterday, August 2003

“We are still looking for a brave soul who is very organized and has lots of spare time to work on a subject Index for all the Gazettes. A great project for the right person!”

-- Ron Easterday, Spring 2009 Membership renewal letter

“I am happy to report that all the Bulletins and Gazettes from years past, starting with ML Bulletin Volume 1, No 1 in 1979, have been scanned and will soon be available in electronic format. These scans, along with pdf files of the current Gazettes provided by Kentwood, allow the Society to have all 30 years of our publications available electronically. By the end of this year an updated Title/Author index of the first 30 years will be available. Stay tuned for further details later this year.”

-- Ron Easterday, Spring 2010 Membership renewal letter

“A brave sole is still needed to someday prepare a Subject index.”

-- Ron Easterday, May 2010, at the 14th International Convention

Thirty year Issue/Title/Author Index Updated

-- Dorothy and Ron Easterday, December 2010

About this Index

Articles selected for inclusion in this Index were those that the index editors felt would help the those researching the Magic Lantern past and present, and those interested in the Society as a whole.

Items about local group meetings, messages from the president, member profiles and classified advertisement type items that are common to most issues were not included in the index.

If anyone is interested in taking the index to the next step by creating a By Subject section, please contact the society Secretary.

Errors and Omissions: Any and all errors and omissions in this index are solely the responsibility of the individuals that created this document; they are not the responsibility of the Society.

Please contact the Secretary-Treasurer regarding any errors or omissions so they may be corrected in future editions of the Index for the benefit of all.

How to use this Index

This index contains four sections: **By Issue, By Title, By Author**, and the **Publication List**. They can be used together or separately.

- Newer members may find the **By Issue** section useful to see what topics have been published in the past. Note that issues consisting solely of historical catalog reprints or issue numbers that were skipped are not listed in this Section. The Publication List includes the complete list of all publications, reprints, and numbering discrepancies.
- If you know the title of an article, or want to look for a key word in a title, check the **By Title** section.
- If you know who contributed an article, check the **By Author** section to find it and to see what else that person contributed. Articles are listed under the published names, so you will see entries for the same person under Bob and Robert, for example, if that is how they were published. Pen names are listed as published, with no cross reference to the actual author.
- Finally, the **Publication List** at the end lists every publication and is used to translate the issue code into the Volume, Number, Publication Date and Name to allow you find the issue in your library. The publication list includes notes listing special inserts or unique characteristics of a particular issue.

Back Issues: Contact the Secretary for information regarding ordering back issues of publications. A few issues are available in original printed copies. All issues have been scanned and are available electronically in pdf format.

Abbreviations and Names: The first Society publication was the ML Bulletin. The second name was the Magic Lantern Bulletin. Both of these publications are abbreviated in this index as MLB. The current publication name is the Magic Lantern Gazette and is abbreviated MLG.

Issue Numbering and Numbering Inconsistencies: The MLS Bulletin and the Magic Lantern Bulletin used the same consecutive Volume numbering system. Volume numbering began using roman numerals. Between 1986 and 1987 the numbering jumped from number VIII (Volume 8) to XVII (Volume 17), then was changed to Arabic numbering, continuing with Volume 18.

About this same time period, it appears the Volume 18, No. 2 issue was skipped entirely, or at least there is no record of this issue ever being published.

There are some issues that were incorrectly numbered on the cover; these are noted in the publication list.

In 1989 The Magic Lantern Gazette began with Volume 1, Number 1, and the numbering has been consecutive ever since.

About the Society

The Magic Lantern Society of the United States and Canada was founded in 1979 and has members in the United States, Canada, and abroad.

Members come from all walks of life and their interests include historical research, preservation, restoration, entertainment and collecting slides and lanterns. Many of the members are also interested in other optical devices, vintage cinema, literature and ephemera.

The stated purposes of the Society are:

1. To establish an organization of persons and entities interested in the collection, possession, conservation, restoration, and maintenance of Magic Lanterns, Lantern Slides and related material.
2. To encourage member persons and entities to share their knowledge of the Magic Lantern, Lantern Slides and related material with any interested person or entities.
3. To coordinate research, catalogue material and disseminate all information about the history, uses and development of the Magic Lantern and Lantern Slides.
4. To promote exhibition and shows of Magic Lantern equipment, Lantern Slides and the known methods of use in as historically accurate a manner as possible.

Contact Information
